5. [REDACTED] LIAISON Pete Roman, on the Senate Governmental Affairs Subcommittee on Federal Spending Practices and Open Government staff, called to report an anonymous tip he had received and requested the opportunity to speak to two Agency employees, whose names he provided me, about the existence of a "half a warehouse full of defective safes from a subsidiary of Art Metal Corporation." Roman agreed not to place the calls himself (he had their phone numbers) until I had an opportunity to look into the matter. Subsequently, after talking with Mike Malanick, ADDA, I called Roman and told him that I would make arrangements for him to speak to the employees or we could provide documentation on this buy in 1970 where the Agency had requested Diebold safes and GSA had instructed us that we must accept the Hillside safes as they meet the specifications and Hillside is the low bidder. Roman [REDACTED] said he felt the memoranda would more than suit their needs.

[REDACTED] Real Estate and Construction Division/Logistics, and reviewing Congresswoman Holt's Liaison file, I informed Miss Crain that the building did not belong to us and that for further details on the building she should refer to the letter to Congresswoman Holt dated June 8, 1977. Ms. Crain asked that we send her a copy of the letter because she did not think she could find it in their files.
